E-COMMERCE SALES PERFORMANCE REPORT

Objective: assess sales, profit, customers, categories, regions, payments, returns, and negative-profit orders to set the next moves.

EXECUTIVE READOUT

SALES · PROFIT · CUSTOMERS · OPERATIONS

SOURCE: E-COMMERCE SALES REVIEW AND ORDER WORKBOOK (34,500 ROWS) · FULL PORTFOLIO

Made with GAMMA

01 · SCALE

SCALE IS STRONG, WITH 5.87M IN SALES AND 0.97M IN PROFIT

The business has meaningful volume: 34,500 orders from 7,903 distinct customers (unique customer_id), with 51,430 units sold.

02 · CATEGORY ECONOMICS

ELECTRONICS LEADS SALES AND PROFIT CONTRIBUTION; GROCERY RECORDS NEGATIVE PROFIT.

SALES SCALE AND PROFIT CONTRIBUTION SHOWN TOGETHER.

KEY READ

SCALE DOES NOT GUARANTEE VALUE.

Electronics contributes the most sales and profit. Grocery is the only loss-making category, despite its smaller scale.

▼ GROCERY · NEGATIVE PROFIT

03 · REGIONAL PERFORMANCE

SOUTH AND NORTH LEAD REGIONAL SALES, BUT CENTRAL TRAILS

SALES BY REGION, WITH PROFIT SHOWN AS THE SECOND SERIES.

OPPORTUNITY

CENTRAL IS THE CLEAREST SCALE GAP.

South leads at 1,298,096.07, followed closely by North at 1,264,008.35. Central is lowest at 940,503.38.

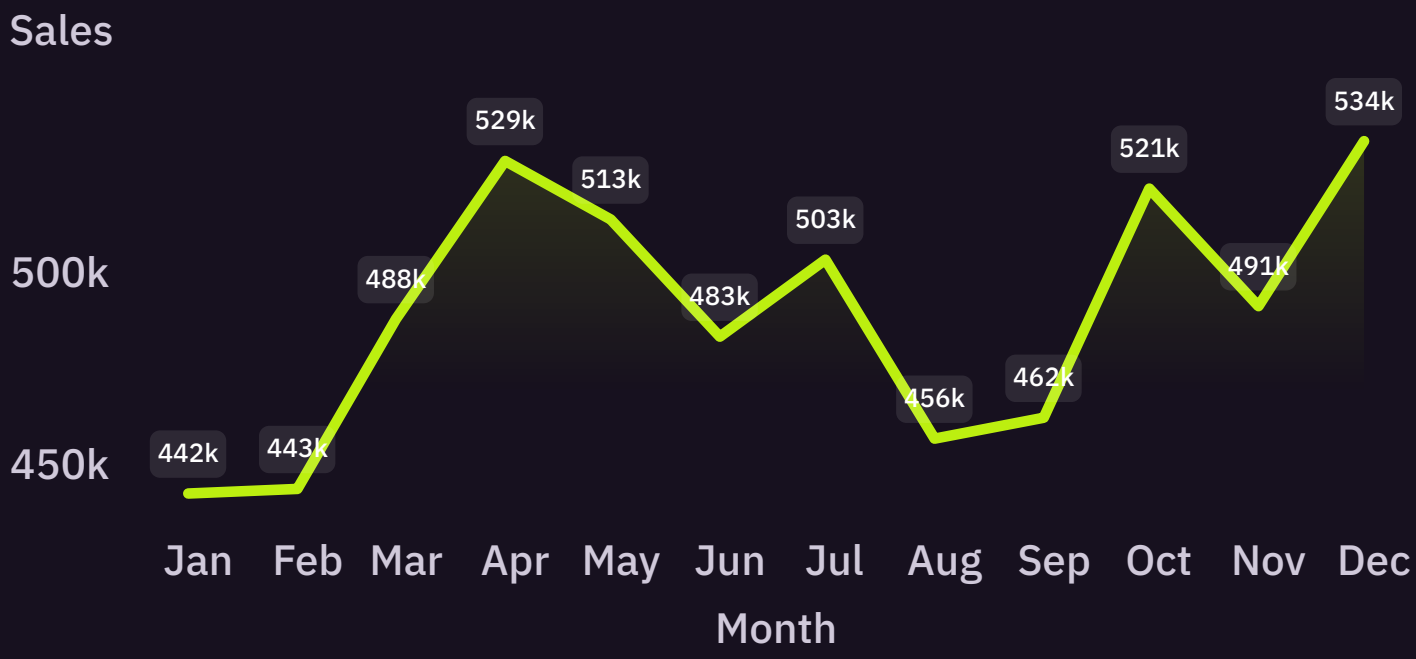

Targeted demand and assortment moves should start here.

05 · PAYMENT MIX

CREDIT AND DEBIT CARDS CARRY ABOUT 60.0% OF SALES

SALES VALUE BY PAYMENT METHOD.

MIX SIGNAL

CARDS REMAIN THE CORE CONVERSION ENGINE.

Credit Card leads at 2,056,787.40 and Debit Card follows at 1,460,210.97; together they total 3,516,998.37, about 60.0% of total sales. COD and UPI form the next tier at about 715K each.

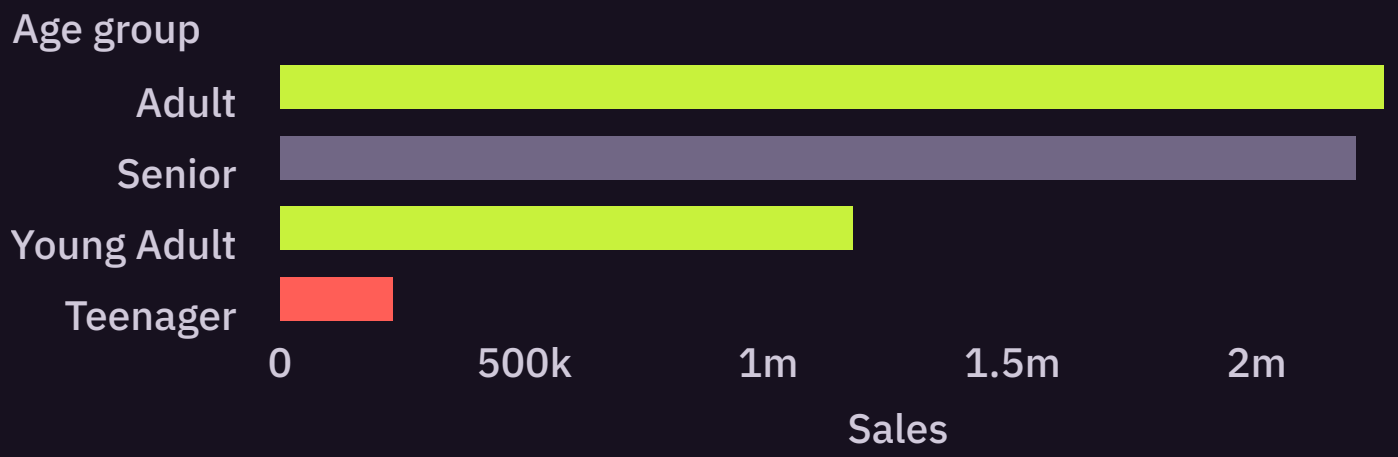

The mix is diversified, but card-led value is decisive.

Made with GAMMA

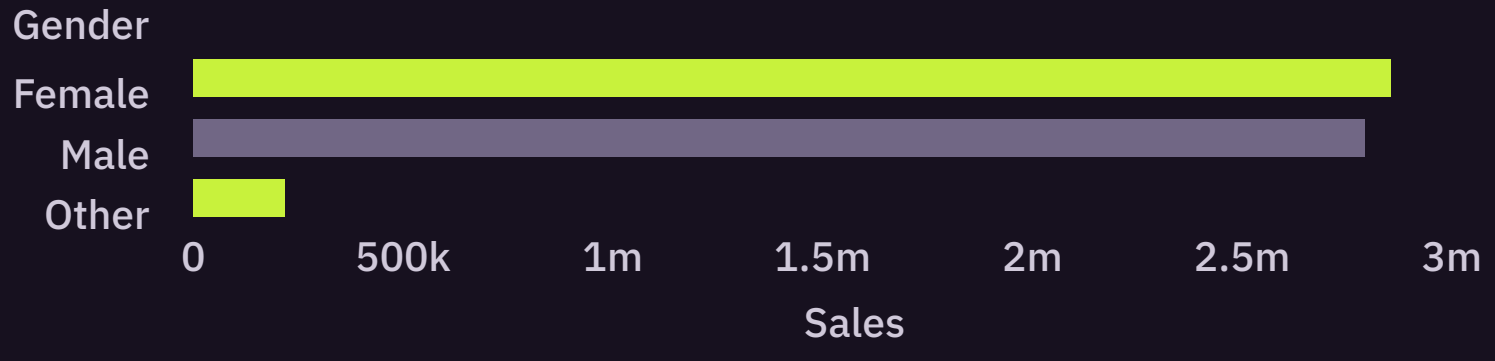

ADULTS AND SENIORS GENERATE THE BROADEST CUSTOMER VALUE

AGE-GROUP AND GENDER SALES ARE TWO SEPARATE VIEWS OF THE SAME TOTAL; DO NOT ADD THEM.

SALES BY AGE GROUP

SALES BY GENDER

CUSTOMER READ

VALUE IS BROAD, NOT CONCENTRATED IN ONE GENDER.

Adults generate 2,260,592.66 and seniors 2,201,663.47. Female and male customers contribute nearly equal sales, while Other remains smaller but meaningful.

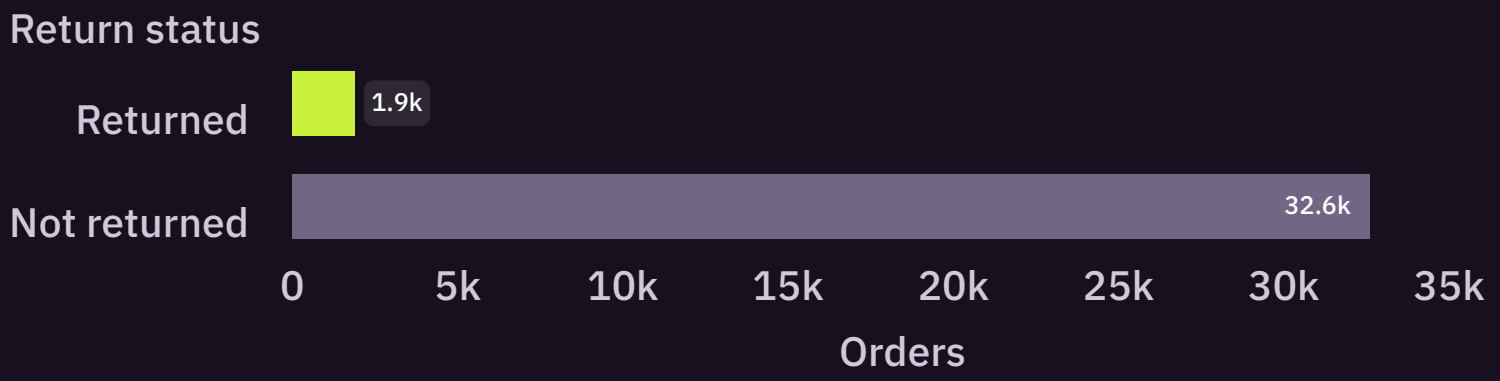

Made with GAMMA

07 · RETURNS & MARGIN

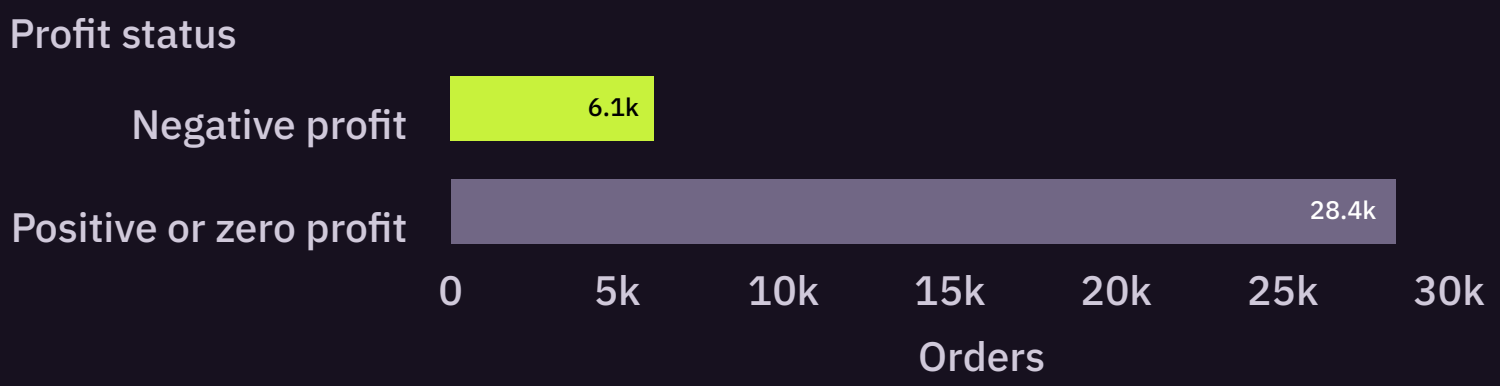

RETURNS ARE CONTAINED AT 5.5%, BUT MARGIN LEAKAGE IS VISIBLE

RETURN ANALYSIS AND PROFITABILITY ANALYSIS ARE SHOWN SEPARATELY; THEIR ORDER GROUPS OVERLAP.

RETURN ANALYSIS · ORDERS

PROFITABILITY ANALYSIS · ORDERS

LEAKAGE SIGNAL

RETURN RATE

5.5%

1,903 returned of 34,500 total orders

NEGATIVE-PROFIT ORDERS

17.7%

6,104 of 34,500 total orders

Average delivery time is 4.8 days. The bigger opportunity is reducing low-margin or loss-making orders.

08 · PRIORITY STACK

THE PORTFOLIO HAS A CLEAR PRIORITY STACK

01 Electronics: 3,319,206.50 sales and 344,371.77 profit. Protect its scale while improving contribution economics.

02 Grocery: -9,187.96 profit on 82,000.51 sales. Repair pricing, discounting, sourcing, or fulfillment before expanding it.

03 Peaks: April (528,620.69) and December (533,771.22). Use them to align campaigns and inventory.

04 Central: 940,503.38 sales, the lowest region. Close the gap with targeted demand and assortment moves.

05 Negative-profit orders: 6,104 of 34,500 (17.7%). Reduce them through margin guardrails and offer discipline.

09 · ACTION PLAN

RECOMMENDED NEXT MOVES

Turn the readout into a focused operating cadence: isolate leakage, test growth, then manage the peaks.

Next 30 days

Isolate loss-making Grocery SKUs and discount patterns. Measure: Grocery profit moving from -9,187.96 to positive; negative-profit order share (17.7%) trending down.

Next 60 days

Build a Central-region growth test with category-level targets. Measure: Central sales gap to the other regions narrowing from 940,503.38.

Next 90 days

Plan inventory and promotion calendars around April and December peaks. Measure: stock availability and promotion results in peak months.

Ongoing

Monitor sales, profit, returns, delivery time, and payment mix together. Measure: return rate (5.5%) maintained or improved; negative-profit order share trending down
